

Living with Design

At KUN DESIGN, we create outdoor furniture and accessories that embody the contemporary era. Our products are developed from materials that retain the integrity of outdoor furniture without compromising the sophistication of indoor furnishing. Inspired by nature and life, our furniture can be placed anytime, anywhere, regardless of season and setting.

In pursuit of “Living with Design”, we design furniture with an inclusive language that is unlimited by spatial boundaries, for users of all backgrounds to explore the many ways to integrate design with space. Joining the strengths of “Designed in China” and “Made in China”, Kundesign hopes to bring products that are both modern and accessible to anybody who appreciates good furniture.

KUNDESIGN products adhere to European Union (EU STANDARD) international standards, holding ISO, SGS, and CE certifications while following eco-friendly principles. In material development, selection, and utilization, sustainability is prioritized: the use of FSC-certified timber from sustainable sources, evidenced by contributions to China's national outdoor furniture standards and the promotion of waste recycling and redesign.

KUNDESIGN imposes stringent standards on base material selection and treatment. All furniture frames undergo corrosion-resistance testing, with surfaces finished with professional anti-UV electrostatic powder coating or transfer printing technology, without photocatalytic effects. Fabrics are selected from internationally recognized outdoor textiles with excellent water resistance and washability, and are non-irritating and non-allergenic to human skin. These meticulous controls ensure high-performance outdoor furniture that resists corrosion and abrasion, and maintains its quality even under extreme heat or cold.

STORES & SHOWROOMS

KUNDESIGN's products are present in more than 20 countries with nearly 30 stores and showrooms, providing users around the world with ideas and inspiration for outdoor living.

OUR SERVICES

SHOWROOM DESIGN

With more than a decade of experience in the outdoor industry, the KUNDESIGN team understands the essence of our clients' needs. Through thoughtful spatial storytelling and integrated design, we create outdoor and exhibition environments that are warm, expressive, and engaging—supporting every client from concept to realization.

BRAND TRAINING

At the heart of KUNDESIGN lies the power of professional design. Offering integrated solutions that span from product curation to on-site realization, KUNDESIGN ensures each project space balances aesthetic harmony and practical purpose.

An expert team provides tailored service across every stage, including furniture selection, color and material strategy, cost optimization, styling direction, and product care guidance.

NARA new

Nara Series draws inspiration from the deer of Nara, Japan, embodying their quiet grace and composed agility. Rather than relying on expressive gestures, the design conveys lightness through proportion and detail, introducing a subtle sense of ease into the space. Its defining feature lies in the leg structure, echoing the poised strength of a deer's stance.

The *Metal Frame* is *Neat* and full of rhythmic sense. The strip components can be freely disassembled, assembled and replaced, and the color-blocked version is just like a variation, infusing daily life with rhythmic charm.

JUMBO II new

Jumbo Series represents an unhurried contemporary attitude towards leisure life. This cage-style lounge chair features smooth curves and linear weaving, forming a highly recognizable three-dimensional shelter shape. Its linear woven structure boasts airiness and geometric rhythm in the interweaving of void and solid.

MONO new

Elephant footprints serve as the artistic inspiration for Mono Series, from whose stillness blooms a silent grandeur. Blending the quiet warmth of natural stone with the refined clarity of sculpture, Mono Table & Side Table Series conveys a poised inner strength through ultra-minimal volumes.

EXTENDABLE DINING TABLE

112

The tabletops are sleek and precise, while the supporting structures evolve naturally in response to function and proportion. Single-, double-, triple-, and four-legged variations each assume a *Distinct Stance*.

113

BALANCE LIGHT new

Be balanced, stable, and back to the original state of things, which is the initial design concept of Balance series. This floor lamp is composed of a single vertical column supporting a pair of symmetrical "counterweight" lamp heads, evoking the precision of a finely balanced scale.

120

MONO LIGHT new

Elephant footprints serve as the artistic inspiration for Mono Series, from whose stillness blooms a silent grandeur. Mono Lamps extend this core form into light. Defined by crisp yet softened lines, the lamp bodies eliminate superfluous detail, allowing light and structure to coexist in quiet harmony. Warm illumination diffuses gently, while the bases rest with the grounded stability of elephant feet.

HALO new

Halo Series draws inspiration from the embracing quality of light. Its modular structure dissolves functional boundaries, allowing light and space to interact with fluidity. At its core is a geometric dialogue between square and circle: a structured square frame provides stability, while the circular void—resembling a halo—allows light to pass through with quiet transparency. The modules offer versatile configurations. As a wall lamp, they can be connected to form a continuous band of light.

DRAPE new

Drape Series captures the fleeting moment when soft fabric is gently lifted, framed by metal lines that preserve this delicate movement as a lasting artistic form. The luminaire features a tapered cage structure, narrowing at the top and widening toward the base. The handle echoes the softly cascading metal strips, which unfurl like a curtain as light filters gently through the gaps.

DRAPE-FLOOR LAMP (M) / FLOOR LAMP (XL)
(KA85017) Sand

LANTERN new

The inspiration for the Lantern series comes from the combination of oriental aesthetics and modern design. The lantern series is about 'light', the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and handbasket.

130

131

Lantern Floor Lamp and Floor Reading Lamp retain the series' signature handle silhouette, reflecting its distinctive heritage while introducing enhanced functionality.

CLOGS

Clogs series is intended to show the combination and application of diverse materials and functional forms in outdoor furniture. This series is inspired by ancient wooden clogs which present Eastern and Western handicraft aesthetics.

LANTERN-FLOOR LAMP (L)
(KH8510A) Olive

The modules feature a “pizza” form—narrower at the front and wider at the back—naturally converging into an inward-facing arrangement.

This intentional design fosters a sense of cohesion while subtly encouraging *conversation* and *interaction*.

Compared to conventional *rocking chairs*, it features a lower seat height and a gentler, more restrained rocking motion, creating a slow, controlled rhythm that enhances relaxation.

STRING

Simple and pure, from lines into a plane, this is the design concept of String series. Each piece in this collection is completed with a suspended structure and a hand-weaving technique to create a classic, timeless impression.

The unique surface infuses the seat with a more humanistic temperament, fits the relaxed mood of the *crafted art style*, and gives the indoor and outdoor more abundant levels and temperatures.

RIBBON

Ribbon Stool is an abstraction of natural things and simple manual-era life. It conveys a relaxed and beautiful emotion. Its round shape looks like vigorous seeds, leaves, plump succulent plants and grains. The banding design represents the easy 'hand tying' actions, such as bundling hay, tying a bouquet or a gift.

PALM

Palm High-Back Lounge Chair draws inspiration from the dignity of ceremonial tribal seating and the gentle embrace of palm fronds. Its tall back unfolds like a canopy, while intricate interwoven textures subtly reference tribal motifs, lending the piece a composed and sculptural presence. Natural teak armrests retain their authentic character, complemented by generously padded seat and back cushions that provide balanced support. Sitting within it evokes a sense of retreat—a quiet refuge amid the bustle, offering a personal domain of calm and serenity.

FLOAT

Float Series is driven by the spirit of “chasing the horizon, a journey of freedom,” balancing lightness and stability while redefining the ultimate relaxation of the body. Inspired by modern interpretations of classic hanging chairs and hammocks, it evokes the soothing memory of gentle childhood swings. The design also draws from the taut structures of sailcloth, with clean components stretching the fabric lightly, capturing both the fluidity of the sea and the clarity of modern furniture. Float Lounge Chair and Stool feature sculptural metal frames, with four rope-tied corners suspending the seat to create an almost weightless visual effect. The integrated seat is crafted from high-density outdoor fabric, providing resilient support, while the softly padded outer cushion is ergonomically zoned to follow the body’s contours, offering a gentle sense of suspension and immersive comfort. A subtle rocking motion recalls the ease of a hammock or the rhythm of sailing, allowing both body and mind to unwind in quiet movement. The design transitions effortlessly between outdoor and indoor settings.

BALI

Bali Series captures the wind and light of the islands, evoking a relaxed, resort-like atmosphere. Its design draws from the gentle slope of coastal rocks meeting the sea, expressed through the sofa’s softly inclined armrests. The overall silhouette feels substantial yet rhythmically balanced. Vertical weaving defines the backrests, while the armrests are fully wrapped in handwoven rope, subtly referencing the craftsmanship of traditional fishing tools. Rounded tubular frames pair with structured rope weaving, highlighting a tactile, handcrafted character. Soft, slender cushions for seat and back echo the warmth of sunlit sands, offering comfort that feels both natural and refined. Seated within, the body is gently embraced—each moment recalling the ease of a quiet island afternoon touched by sea breeze.

COVE

Cove Series evokes the image of a small cove gently embraced by the sea—a sheltered retreat defined by calm and protection. Cove Sofa is shaped by rounded, generous volumes that form an enveloping silhouette, echoing the contours of a shoreline carved by water. Cushions, armrests, and accent pillows subtly reference rocks revealed by the tide, introducing rhythm and depth to the composition. Woven detailing softens the bold tubular frame, whose grounded presence conveys a sense of natural authenticity. Loveseat and corner modules allow for flexible configurations, while oval armrests and backrests reflect the organic curvature of a bay. Every line is composed with quiet softness, creating an atmosphere that feels relaxed, secure, and adaptable to both outdoor and indoor social settings.

SHELL

Shell Series is inspired by the ‘shell’ in nature. With a three-dimensional weaving style as the highlight, each piece of this series integrates several techniques and textures and emphasizes the beauty of diverse handicrafts. Under the aesthetic of combining virtual and real, Shell Chair uses a simple aluminum frame with a fully woven backrest and seat to create a unique shape and comfortable experience. The backrest design uses KUNDESIGN's classic double-layer woven structure, with recognizable parallel lines, like the pattern on the shell, expressing rational geometric beauty. When seated, the shell-shaped backrest can provide good support with breathability. The seat surface chooses a more dense weaving style to ensure the supporting force. At the same time, the outstanding and quite artistic color design makes the different materials perfectly integrated.

CLOGS

Clogs Series is to show the combination and application of diverse materials in outdoor furniture. Through the different textures, it brings a new visual and tactile experience. Inspired by ancient wooden shoe designs with Eastern and Western civilization and aesthetics, the whole series selects ‘wood’ as the base, combined with classic outdoor rope and fabrics, to create a natural, elegant feeling, also with a modern temperament.

NARA

Nara Series draws inspiration from the deer of Nara, Japan, embodying their quiet grace and composed agility. Rather than relying on expressive gestures, the design conveys lightness through proportion and detail, introducing a subtle sense of ease into the space. Its defining feature lies in the leg structure, echoing the poised strength of a deer’s stance. A refined upward taper and balanced vertical lines allow the legs to appear both grounded and light, lending the furniture a calm vitality. Nara Sofa features a rounded, generous silhouette, framed by subtle metallic detailing and upholstered in tactile fabrics. Gentle curves and balanced volumes create a seating experience that feels relaxed, warm, and quietly reassuring.

BAND

With sound waves as ribbons, it strikes the rhythm of life in space. Drawing inspiration from musical rhythms and the undulation of sound waves, the metal strips are wrapped in stitched fabric and arranged in a stretched manner like musical strings. The metal frame is neat and full of rhythmic sense. The strip components can be freely disassembled, assembled and replaced, and the color-blocked version is just like a variation, infusing daily life with rhythmic charm. A single seat becomes a solo performance, while a row transforms into a harmonious chorus. Every time you sit, you step into the rhythm of life.

STRING

Simple and pure, from lines into a plane, this is the design concept of String series. Each piece in this collection is completed with a suspended structure and a hand-weaving technique to create a classic, timeless impression. The high-resilience PVC ropes like the countless strings are tightly arranged in one go, bringing a wrapped sitting experience. Three frames of carbon black, rice white, clay color are unified with the color of ropes, giving the chair a delicate texture.

JUMBO II

JUMBO II series represents an unhurried contemporary attitude towards leisure life. It looks like a jumbo item with “elephant ears” from a distance. JUMBO II Lounge Armchair is wide with a handwoven backrest and wings, expressing a sense of embracement. The color of the wood and the combination of weaving make it very natural and harmonious. The thick seat and comfortable cushions can let a person rest on it all afternoon. The whole series includes a lounge armchair, a 3-seater sofa, footstool and dining chair.

LOOP

The LOOP chair was originally designed to express continuous lines. The entire chair is woven with a single continuous rope. In order to ensure continuity and product quality, the back and the seat of the chair were proportionally divided into four parts, which not only boosts the appearance, but also increases the product lifespan. Soft as well as responsive, the chair provides a comfortable seating experience without the need of a cushion. Additionally, the wear-resisting and strong PVC simplifies the cleaning processing - use a soft brush to give it a fresh new look.

MONO

Elephant footprints serve as the artistic inspiration for Mono Series, from whose stillness blooms a silent grandeur. Blending the quiet warmth of natural stone with the refined clarity of sculpture, Mono Table & Side Table Series conveys a poised inner strength through ultra-minimal volumes. The tabletops are sleek and precise, while the supporting structures evolve naturally in response to function and proportion. Single-, double-, triple-, and four-legged variations each assume a distinct stance. Free from ornamental excess, they project a calm, grounded presence—standing with the quiet authority of natural formations yet retaining a subtle vitality.

BALANCE LIGHT

Be balanced, stable, and back to the original state of things, which is the initial design concept of Balance series. This floor lamp is composed of a single vertical column supporting a pair of symmetrical “counterweight” lamp heads, evoking the precision of a finely balanced scale. The composition introduces a subtle sense of dynamic equilibrium into the space. In contrast to conventional all-metal designs, the pole is wrapped using a handcrafted winding technique, available in outdoor rope or outdoor leather. This tactile surface softens the rigidity of metal, gently tempering the overall atmosphere. The interplay of materials and tones enhances depth and craftsmanship, while the wrapped structure also allows for a comfortable grip and easy repositioning—integrating aesthetics with practicality. The lamp heads adopt a concise, steady form that visually echoes the base elements of the dining and side tables within the series. Grounded yet distinctive, the design establishes a clear identity. More than illumination, it introduces a composed decorative presence, where rational balance and tactile warmth exist in quiet harmony.

SHELL LIGHT

Shell Series is inspired by the ‘shell’ in nature. With a three-dimensional weaving style as the highlight, each piece of this series integrates several techniques and textures and emphasizes the beauty of diverse handicrafts. Under the aesthetic of combining virtual and real, Shell Chair uses a simple aluminum frame with a fully woven backrest and seat to create a unique shape and comfortable experience. The backrest design uses KUNDESIGN's classic double-layer woven structure, with recognizable parallel lines, like the pattern on the shell, expressing rational geometric beauty. When seated, the shell-shaped backrest can provide good support with breathability. The seat surface chooses a more dense weaving style to ensure the supporting force. At the same time, the outstanding and quite artistic color design makes the different materials perfectly integrated.

HALO

Halo Series draws inspiration from the embracing quality of light. Its modular structure dissolves functional boundaries, allowing light and space to interact with fluidity. At its core is a geometric dialogue between square and circle: a structured square frame provides stability, while the circular void—resembling a halo—allows light to pass through with quiet transparency. The modules offer versatile configurations. As a wall lamp, they can be connected to form a continuous band of light. As a floor lamp, the all-metal design—available with or without a stand—presents a sleek and restrained aesthetic. As a candle holder, it can be paired with natural stone or wooden bases, creating a layered interplay of light and shadow. The contrast between the soft halo and the solid metal frame balances ritual presence with decorative refinement. Through its timeless square-and-circle language, Halo Series enhances outdoor environments—functioning not only as illumination, but as a customizable sculptural element within the space.

DRAPE

Drape Series captures the fleeting moment when soft fabric is gently lifted, framed by metal lines that preserve this delicate movement as a lasting artistic form. The luminaire features a tapered cage structure, narrowing at the top and widening toward the base. The handle echoes the softly cascading metal strips, which unfurl like a curtain as light filters gently through the gaps. Strength and softness coexist in balanced harmony, where structured materials meet fluid contours to create a refined interplay of light and shadow. Equipped with integrated solar energy storage, the wireless light source offers complete flexibility in placement, bringing a poetic and atmospheric presence to both indoor and outdoor spaces.

LANTERN

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

JUMBO II

JUMBO II series represents an unhurried contemporary attitude towards leisure life. It looks like a jumbo item with “elephant ears” from a distance. JUMBO II Lounge Armchair is wide with a handwoven backrest and wings, expressing a sense of embrace. The color of the wood and the combination of weaving make it very natural and harmonious. The thick seat and comfortable cushions can let a person rest on it all afternoon. The whole series includes a lounge armchair, a 3-seater sofa, footstool and dining chair.

SHELL

Shell Series is inspired by the ‘shell’ in nature. With a three-dimensional weaving style as the highlight, each piece of this series integrates several techniques and textures and emphasizes the beauty of diverse handicrafts. Under the aesthetic of combining virtual and real, Shell Chair uses a simple aluminum frame with a fully woven backrest and seat to create a unique shape and comfortable experience. The backrest design uses KUNDESIGN's classic double-layer woven structure, with recognizable parallel lines, like the pattern on the shell, expressing rational geometric beauty. When seated, the shell-shaped backrest can provide good support with breathability. The seat surface chooses a more dense weaving style to ensure the supporting force. At the same time, the outstanding and quite artistic color design makes the different materials perfectly integrated.

LOOP

The LOOP chair was originally designed to express continuous lines. The entire chair is woven with a single continuous rope. In order to ensure continuity and product quality, the back and the seat of the chair were proportionally divided into four parts, which not only boosts the appearance, but also increases the product lifespan. Soft as well as responsive, the chair provides a comfortable seating experience without the need of a cushion. Additionally, the wear-resisting and strong PVC simplifies the cleaning processing - use a soft brush to give it a fresh new look.

BLOCK

Walking through various city blocks, enjoying the relaxation brought by the free exploration, the design concept of the Block Series just inspired by the 'city block'. The first impression of Block Sofa is thick, full, and comfortable. It can bring complete relaxation for the body and mind, like a long-awaited urban roaming, which is desirable. It uses a square block as the basic element to extend a single position, corner position, arc module, etc., which can match a flexible seating scene. Block Sofa adopts a split structure that can ensure the stability of the module system. Based on the outdoor sponges, the seat cushion also adds a built-in spring structure to achieve better support and rebound effect. While the T-shaped backrest with handwoven elements can be installed on any three sides of the base, and the special fixed way at the bottom makes it stand directly on the ground, like road signs and street guideposts, to express the characteristics of different cities: dark red and wooden color remind the memory of Beijing, light yellow and beige represent the romance of Paris. In addition, the exquisite teak decoration, woven pattern, and functional damp-proof foot emphasize the sense of integrity of this collection.

CHIC

Chic folding chair was born to pay tribute to the classic Director's Chair in 20th century, and its design inspiration can be traced back to the earliest.In ancient Rome. Through modern technology, Chic folding chair has simplified and optimized the chair structure to the maximum extent, and every part is integrated.Body casting, reinterpreting standardization from excellent details. Its firm chair body consists of metal frame and hand-sewn three-dimensional sewing fabric.Quick-drying sponge is built into backrest and seat surface, which has both aesthetic feeling and sitting comfort. In daily use, Chic folding chair is easy to store, showing quality and weight.And can be applied to various scenes.

PILLOW

The PILLOW is the result of Kun’s exploration for the possibility of outdoor upholstery. Continuous adjustments were made during the development process to find the current structural proportion that merges functionality with streamlined aesthetics. The back and armrest cushions of the collection resemble soft pillows - just like the collection name - whose coverings can be removed for easy cleaning. Wrapped with KunDesign Tex, a material with remarkable durability and resistance to outdoor conditions, the quick-drying cushions are designed to be placed outside. Seated on a teak or bamboo base frame to create a textual contrast, which are FSC certified in consideration of the environment. With versatile modular components, the Pillow sofa is suitable for all interior and exterior settings.

OVAL

OVAL chair is our contemporary and three-dimensional take of the traditional board back chair. The edge stamping craft allows it to have a large and three-dimensional backrest - comfortable and compact. The legs have plump lines that give off a powerful presence when placed in open space. We use wooden finish on the alumimium seat surface to make it more durable and easier to maintain while retaining the warm visual sense of wood.

RUGBY

An interactive conversation between metal, wood, and fabric resulted in the design of the RUGBY series. The upholstery’s plump shape is relieved by spindle shaped-legs, so the resulting structure takes on a refreshing rather than chunky appearance. The armrests have a width and height that match the body’s natural arm placement, and also serve as partition from the cold metal frame. Constructed with comfortable materials that are weather-resistant, the collection can be used in all spaces, both outdoors and indoors. With quality and weather proof teak wood set on aluminum legs, the lounge coffee table is designed to complement the contemporary lifestyle. It is deliberately set at a height that allows the table to be used not just for a singular purpose, but as a versatile and multifunctional product in your home.

NEST

The geometric weavings of the NEST collection mimic the appearance of rattan, giving the series a tropical look. On the highback-lounge chair, the weavings create a partition around the body for privacy. Crafted in weather-resistant ropes and quick-dry cushion, the sofa is suitable for both indoor and outdoor use.

BANYAN TREE

With a curvature that conforms to the natural arch of the human spine, the back of the Banyan Tree is designed to put the body at ease. The interwoven strands are reminiscent of tree vines to create a distinctive look that can easily complement its surroundings. Weaved in weather-resistant and easy-to-clean Kundesign Rope, the Banyan Tree is a versatile series that can be placed in small living spaces, both indoors and outdoors.

RIBBON

Ribbon Stool is an abstraction of natural things and simple manual-era life. It conveys a relaxed and beautiful emotion. Its round shape looks like vigorous seeds, leaves, plump succulent plants and grains. The banding design represents the easy ‘hand tying’ actions, such as bundling hay, tying a bouquet or a gift. Ribbon Stool has a multi-layer design with removable surface cover for easy cleaning and replacement, waterproof liner, and bottom counterweight for excellent outdoor performance. The stylish color and a variety of sizes make it flexible. This Stool can be used with dining tables, sofas or as combination furnishing of commercial space.

MOONCAKE

Inspired by joyful holiday moments in life, the Mooncake stool is shaped like a traditional snack in the Mid-Autumn Festival, with continuous arc design and bright colors, presenting a light and cheerful playfulness. This all-aluminum stool is waterproof, easy to clean and maintain. It is suitable as an item to decorate the courtyard or indoor space. It can also be used as a side table to create a vibrant atmosphere.

BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

BERGEN

Bergen table series includes side table, dining table, bar table etc., which is composed by the simple geometric elements and pillars. The radians and details express the smooth rounded characteristics. The table top and bottom can be changed for a variety of colors, and the pillar can be solid color or wooden look by heat transfer process.

LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio. This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

ROOT PLANTER

Root flowerpot refines the "rooted" state of wild plants, and expresses full vitality with abstract design language. It consists of an ellipse.It consists of a tub and a bracket, which can be split up and down. The unique "V-shaped" structure creates a feeling of strength sprouting upward. Among them, the tube basin.The prototype is taken from the vessels of the North African tribes, which is round and simple; The three feet at the bottom are as light and stable as the root system of a plant that goes deep into the soil. Solid. This bracket is not only convenient to move, but also improves the air permeability of the flowerpot, which is beneficial to daily planting.Color matching of Root flowerpot comes from.In the Gobi and oasis of nature, the fine sand-like spray texture presents matte texture.Can satisfy people.Demand for different plants can be used outdoors or at home.

LANTERN

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

WATER AND STAIN REPELLENT/RESISTANT TO UV RAYS

KUNDESIGN Rope is a weaved Selected PVC fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

FRAME

ALL OUR ALUMINIUM FURNITURE IS POWDER COATED

Powder coating serves as a protective layer that is tinted in a variety of colours. Aluminium furniture is ideal for use outdoors as well as indoors.
